

PRACTICLE

Cookie Policy for Practicle

Version	1.0
Effective from	15 September 2026
Language	English
Generated	31 October 2026

This cookie policy explains which cookies and similar technologies Practicle uses on practicle.dk, why we use them, who receives the information, how long it is stored, and how you give, refuse or withdraw consent.

1. What are cookies and similar technologies?

Cookies are small text files stored on your device when you visit our website. We also use the browser's local storage (localStorage and sessionStorage) for similar technical purposes. In this policy they are collectively called "cookies", unless otherwise stated.

2. Controller

Practicle, Snerlehaven 1, 2630 Tåstrup, Denmark, CVR 27353606, is the controller for the processing of personal data on practicle.dk.

Email: support@practicle.dk

3. Categories

We distinguish between two categories:

- **Necessary:** Required for the site to function (session, language, theme and remembering your cookie choice). They are set without consent because they are strictly necessary for the service you request.
- **Statistics:** Google Analytics, which helps us understand how practicle.dk is used. Statistics cookies and the related script are loaded only if you give consent.

We do not use cookies for marketing, advertising profiling or retargeting on practicle.dk.

4. Overview of cookies, purposes, providers and retention

The table shows the cookies and storage keys we set ourselves, as well as the typical Google Analytics cookies that may be set after consent. Names and lifetimes may change if the provider updates its product.

Name	Category	Provider	Purpose	Lifetime / storage
PHPSESSID	Necessary	Practicle (first party)	Maintains your session, including language preference.	Session (typically deleted when the browser is closed).
cookieConsentChoice	Necessary	Practicle (first party)	Remembers whether you have accepted or declined statistics cookies.	Until you delete site data or change your choice.
practicle-theme	Necessary	Practicle (first party)	Remembers your light or dark theme choice.	Until you delete site data or change theme.
prc.returnScroll	Necessary	Practicle (first party)	Remembers scroll position when you return from a subpage.	Session (sessionStorage).
_ga	Statistics	Google LLC	Distinguishes unique visitors across page views.	Up to 24 months. Set only after consent.
_ga_3WD1BSG5NP	Statistics	Google LLC	Persists session state for Google Analytics 4.	Up to 24 months. Set only after consent.

Depending on configuration, Google may also set additional cookies (e.g. _gid) or communicate with its own domains. See Google's documentation for the cookie use applicable at any given time.

5. Google Analytics and third countries

When you give consent, we load Google Analytics 4 (measurement ID G-3WD1BSG5NP) via the Google Tag Manager script. The provider is Google Ireland Limited / Google LLC.

Purpose: to see which pages are visited, approximate geography, device and browser, and referring pages, so we can improve practicle.dk.

What information: cookie identifiers, IP address (used by Google among other things for coarse geolocation), page views, referring URL, language, screen resolution and similar technical data.

We do not collect your name or e-mail via Analytics.

The statistics are shown to us primarily in aggregated form. That does not mean tracking is impossible. Cookies and identifiers may allow Google to recognise your browser across visits, and Google processes the information under its own terms. We therefore cannot guarantee that use is anonymous, or that you cannot be identified by Google.

Google is a US company. Transfers of information to the United States may take place on the basis of Google's participation in the EU-U.S. Data Privacy Framework and/or the European Commission's standard contractual clauses.

Google retains event data according to its default settings (typically up to 14 months at user level, unless otherwise configured). Analytics cookies typically last up to 24 months.

Read Google's privacy policy: policies.google.com/privacy

6. Consent and withdrawal

On your first visit we show a banner where you can accept or decline statistics cookies.

- Accept: we store the choice and load Google Analytics.
- Decline: we store the choice and do not load Analytics. Necessary cookies are still used.

Your choice is stored in the browser (cookieConsentChoice) until you delete site data or change the choice. You can withdraw consent at any time. Upon withdrawal we delete the stored choice, attempt to remove Analytics cookies and do not load Analytics until you give consent again.

You can also delete cookies and site data in your browser. If you block all cookies, some functions (e.g. language and theme) may stop working.

7. Contact

If you have questions about our use of cookies, you can contact us at:

support@practicle.dk

Processing of personal data in general is described in our [privacy policy](#).
